

## About binder

binder is a reputed multi-national company. It was established in Germany in 1960.

Binder is a one of the market leaders in the Circular Connector segment. A 1700+ strong highly quality conscious team works at binder's headquarters in Neckarsulm, Germany and subsidiaries in Singapore, USA, China, Sweden, France, England and Netherlands.

binder not only excels in manufacturing of a variety of industrial circular connectors including built-in cable connectors for automation technology but they are also experts in the development, design and automated manufacturing of customized connectors.

Binder is a traditional company characterized by values that stand for absolute commitment towards customers, employees and service providers. Their daily operations are governed by quality. Binder keeps its responsibility for its employees and communities on par.
